We remind you that in our Blogomamov team of joint preparation for the International Women's Day you will have a lot of interesting things, namely master classes from magnificent needlewomen in such techniques like knitting, patchwork / quilt, scrapbooking and others. Crafts from paper by March 8: Wood Fairy

In order to make such a fairy, we will need:

Round wooden ball with a diameter of 2.5 cm with a hole in the center (a wooden ball with a hole can be bought in deco stores. You can replace it with any other ball (for example, foam) and make a hole in it),

Color corrugated paper

a little ordinary paper

Wire,

Termoklay

Common paper glue (I prefer bilateral scotch),

pliers,

tweezers,

scissors,

ruler,

pencil,

Printer (to print the template).

Print the template. Cut and glue a cone.

Cut the strip of blue corrugated paper 17 by 7.5 cm. If Paper is died, swing it.

Slit blue paper in the shape of a cylinder. Twist the cylinder on one side in such a way that the form of a glass is turned out.

Sing a bit of thermoclaus on the tip of the cone, stick the cylinder into a glass.

Cut six petals from green corrugated paper. With the help of a thermal shift the petals. Enclose the wooden ball so that the tip of the glass walked inside the ball.

From now on, I used only thermocons.

### Hair

Cut 10 lanes of yellow corrugated paper 11 per 1 cm. Twisted the flap of the flagella: at the edges are stronger, in the middle is weaker. Watch your hair on your head. Watch that there is no empty seats.

### Wreath

Twist a firbean from a green paper strip (11 by 2 cm). Slash the flagellum into the ring and shoot on the head. Twist the grinding lumps of corrugated paper, and with the help of a tweezer, shift on the wreath. Arms

Cut the wire with a long 17 cm and strip of blue corrugated paper (17 by 2 cm). Twist harness with wire in the center, tide wire tips and generate. Stick on the back for the petals. On the scene of the palm of the tiny pieces of pieces of bodily color.

### Wings

Cut the wings according to the template. Twist the wings in the center and turn on the back.

### Eight

From the strip of corrugated paper 21 by 2 cm twist the harness and glue in the form of the eight. Insert into the hands (do not incur).

Pencils draw the features of the face.

Remove the remnants of the glue. If necessary, straighten the paper.

Paper handicraft Forest Fairy for March 8 is ready!

I wish you creative success!
